The project consists of the construction of a new pump station, installation of a new 8-inch suction pipeline, installation of a 4-inch diameter force pipeline and interconnection with the existing 4-inch diameter pipeline to provide an adequate water distribution system for the Sectors 10-1 and 10-2 in Campo Alegre Ward. In addition, replacement of a 2-inch pipeline for a 4-inch pipeline in the Mariposa Ward. This project seeks to permanently address water deficiencies as well ensure a resilient and reliable drinking water service for these sectors.

The project will benefit approximately 286 families in the Municipalities of Arecibo and Hatillo. Funding by Puerto Rico Aqueduct and Sewer Authority (PRASA), the Federal Management Emergency Agency (FEMA) under the FEMA's Accelerated Obligation Strategy (known as FAAST), and the Community Development Block Grant-Disaster Recovery (CDBG-DR) Program.
