Re: CDBG-DR RGRW-01757 Monte Azul Inc.,
Maricao, Puerto Rico

Dear Mr. Pérez-Bofill

Thank you for your letter dated February 09, 2024, requesting informal consultation on the above referenced project. As per your request, our comments are provided under the Endangered Species Act (Act) (87 Stat. 884, as amended; 16 United States Code 1531 et seq.), and the Fish and Wildlife Coordination Act (48 Stat. 401, as amended; 16 U.S.C. 661 et seq.).

The Puerto Rico Department of Housing (PRDOH) is proposing to purchase a parcel of land (acreage not provided) on State Road PR-128, Km 29.9, Indiera Alta Ward in the municipality of Maricao (18°09'25.6"N 66°52'40.3"W) to continue to be used for the harvesting of bananas, pumpkins, tubers, and planting of coffee in shaded areas. According to PRDOH, no construction will take place on the property.

Using the U.S. Fish and Wildlife Service's (Service) Information for Planning and Consultation (IPaC) system (Project code: 2024-0023841), the PRDOH has determined that the proposed project lies within the range of the Puerto Rican boa (*Epicrates inornatus* now known as *Chilabothrus inornatus*), Puerto Rican parrot (*Amazona vittata*), Puerto Rican sharp-shinned hawk (*Accipier striatus venator*), Puerto Rican broad-winged hawk (*Buteo platypterus brunnescens*) and Puerto Rican harlequin butterfly (*Atlantea tulita*).

The PRDOH has determined that the proposed project will have no effect (NE) on the Puerto Rican harlequin butterfly due to the lack of suitable habitat for this species in the property. We acknowledge receipt of PRDOH's NE determination for the Puerto Rican harlequin butterfly. Currently, we do not have any information to refute that determination. Because PRDOH made a NE determination, PRDOH is not required to conduct formal or informal section 7 consultation with the and the Service is not required to concur with PRDOH's NE determination.

Based on the nature of the project, scope of work, information available, and existing habitat, the PRDOH has determined that the proposed project may affect but is not likely to adversely affect the Puerto Rican boa, Puerto Rican parrot, Puerto Rican sharp-shinned hawk and Puerto Rican broad-winged hawk. Conservation measures previously provided to PRDOH by the Service will be implemented prior to and during the project activities to avoid and minimize impacts to this species.

We have reviewed the information provided and our files, and concur with PRDOH's determination that the proposed project may affect, but is not likely to adversely affect the Puerto Rican boa, Puerto Rican parrot, Puerto Rican sharp-shinned hawk and Puerto Rican broad-winged hawk with the implementation of the conservation measures.

As per the conservation measures, please note that if a Puerto Rican boa is encountered during the project activities, it should not be captured. If a boa needs to be moved out of harm's way, the Puerto Rico Department of Natural and Environmental Resources (PRDNER) should be contacted for safe capture and relocation of the animal. If immediate relocation is not an option, project-related activities in the area where the boa is found must stop until it moves out of harm's way on its own.

In view of this, we believe that requirements of section 7 of the Endangered Species Act (Act) have been satisfied. However, obligations under section 7 of the Act must be reconsidered if: (1) new information reveals impacts of this identified action that may affect listed species or critical habitat in a manner that was not previously considered; (2) this action is subsequently modified in a manner not previously considered in this assessment; or, (3) a new species is listed, or critical habitat determined that may be affected by the identified action.

Thank you for the opportunity to comment on this project. If you have any questions or require additional information, please contact us via email at caribbean_es@fws.gov or by phone at (786) 244-0081.

Sincerely,
