### Airport Hazards

General policy	Legislation	Regulation
It is HUD's policy to apply standards to prevent incompatible development around civil airports and military airfields.		24 CFR Part 51 Subpart D

1. To ensure compatible land use development, you must determine your site's proximity to civil and military airports. Is your project within 15,000 feet of a military airport or 2,500 feet of a civilian airport?

✓ No

Based on the response, the review is in compliance with this section. Document and upload the map showing that the site is not within the applicable distances to a military or civilian airport below

Yes

### Screen Summary

#### Compliance Determination

The nearest airport RPZ/CZ is approximately 17,017 feet away. The project site is not within 15,000 feet of a military airport or 2,500 feet of a civilian airport. The project is in compliance with Airport Hazards requirements.

## Coastal Barrier Resources

General requirements	Legislation	Regulation
HUD financial assistance may not be used for most activities in units of the Coastal Barrier Resources System (CBRS). See 16 USC 3504 for limitations on federal expenditures affecting the CBRS.	Coastal Barrier Resources Act (CBRA) of 1982, as amended by the Coastal Barrier Improvement Act of 1990 (16 USC 3501)	

**1. Is the project located in a CBRS Unit?**

No

## Flood Insurance

General requirements	Legislation	Regulation
Certain types of federal financial assistance may not be used in floodplains unless the community participates in National Flood Insurance Program and flood insurance is both obtained and maintained.	Flood Disaster Protection Act of 1973 as amended (42 USC 4001-4128)	24 CFR 50.4(b)(1) and 24 CFR 58.6(a) and (b); 24 CFR 55.1(b).

**1. Does this project involve financial assistance for construction, rehabilitation, or acquisition of a mobile home, building, or insurable personal property?**

No. This project does not require flood insurance or is excepted from flood insurance.

✓ Yes

**2. Upload a FEMA/FIRM map showing the site here:**

[PR-SBF-07368 Flood Map.pdf](#)

The Federal Emergency Management Agency (FEMA) designates floodplains. The [FEMA Map Service Center](#) provides this information in the form of FEMA Flood Insurance Rate Maps (FIRMs). For projects in areas not mapped by FEMA, use the best available information to determine floodplain information. Include documentation, including a discussion of why this is the best available information for the site. Provide FEMA/FIRM floodplain zone designation, panel number, and date within your documentation.

**Is the structure, part of the structure, or insurable property located in a FEMA-designated Special Flood Hazard Area?**

No

✓ Yes

**3. Is the community participating in the National Flood Insurance Program or has less than one year passed since FEMA notification of Special Flood Hazards?**

✓ Yes, the community is participating in the National Flood Insurance Program.

Based on the response, the review is in compliance with this section.

Flood insurance under the National Flood Insurance Program must be obtained and maintained for the economic life of the project, in the amount of the total project cost or the maximum coverage limit, whichever is less.

Document and upload a copy of the flood insurance policy declaration or a paid receipt for the current annual flood insurance premium and a copy of the application for flood insurance below.

Yes, less than one year has passed since FEMA notification of Special Flood Hazards.

No. The community is not participating, or its participation has been suspended.

## Contamination and Toxic Substances

General requirements	Legislation	Regulations
It is HUD policy that all properties that are being proposed for use in HUD programs be free of hazardous materials, contamination, toxic chemicals and gases, and radioactive substances, where a hazard could affect the health and safety of the occupants or conflict with the intended utilization of the property.		24 CFR 58.5(i)(2) 24 CFR 50.3(i)

**1. How was site contamination evaluated? Select all that apply. Document and upload documentation and reports and evaluation explanation of site contamination below.**

American Society for Testing and Materials (ASTM) Phase I Environmental Site Assessment (ESA)

ASTM Phase II ESA

Remediation or clean-up plan

ASTM Vapor Encroachment Screening

None of the Above

**2. Were any on-site or nearby toxic, hazardous, or radioactive substances found that could affect the health and safety of project occupants or conflict with the intended use of the property? (Were any recognized environmental conditions or RECs identified in a Phase I ESA and confirmed in a Phase II ESA?)**

No

**Explain:**

Based on ECHO reports for the facilities, there is no impact for the intended use of this project. See attached table.

Based on the response, the review is in compliance with this section.

Yes

### Screen Summary

#### **Compliance Determination**

Site contamination was evaluated as follows: None of the above. On-site or nearby toxic, hazardous, or radioactive substances that could affect the health and safety of project occupants or conflict with the intended use of the property were not found. **Endangered Species**

General requirements	ESA Legislation	Regulations
Section 7 of the Endangered Species Act (ESA) mandates that federal agencies ensure that actions that they authorize, fund, or carry out shall not jeopardize the continued existence of federally listed plants and animals or result in the adverse modification or destruction of designated critical habitat. Where their actions may affect resources protected by the ESA, agencies must consult with the Fish and Wildlife Service and/or the National Marine Fisheries Service (“FWS” and “NMFS” or “the Services”).	The Endangered Species Act of 1973 (16 U.S.C. 1531 <i>et seq.</i> ); particularly section 7 (16 USC 1536).	50 CFR Part 402

**1. Does the project involve any activities that have the potential to affect species or habitats?**

✓ No, the project will have No Effect due to the nature of the activities involved in the project.

This selection is only appropriate if none of the activities involved in the project have potential to affect species or habitats. Examples of actions without potential to affect listed species may include: purchasing existing buildings, completing interior renovations to existing buildings, and replacing exterior paint or siding on existing buildings.

Based on the response, the review is in compliance with this section.

No, the project will have No Effect based on a letter of understanding, memorandum of agreement, programmatic agreement, or checklist provided by local HUD office

Yes, the activities involved in the project have the potential to affect species and/or habitats.

**EXECUTIVE ORDER 11988 – FLOODPLAIN MANAGEMENT  
FIVE-STEP PROCESS AS PROVIDED BY 24 CFR §55.20  
U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT  
COMMUNITY DEVELOPMENT BLOCK GRANT – DISASTER RELIEF (CDBG-DR) PROGRAM**

Puerto Rico Department of Housing (PRDOH)  
Small Business Financing (SBF) Program Project No. PR-SBF-07368  
HONDAMANIA

***Step 1: Determine whether the action is located in a 100-year floodplain (or a 500-year floodplain for critical actions).***

The proposed project is intended to renovate the building as part of the Economic Development portion of the CDBG-DR grant. The renovation is intended to install new 4 post car lift for the Small Business. The project is located at BO DULCES LABIOS 27 CALLE SAN JUAN S Mayagüez, PR 00682. The Tax Parcel ID of the site is 233-036-252-40-001. The Latitude is 18.205222 and the Longitude is -67.149761. The project is located entirely within the 100-year floodplain. The property is shown as being within Zone AE on the Advisory Base Flood Elevation (ABFE) Map.

Executive Order (EO) 11988 within HUD Regulations 24 CFR Part 55 details floodplain management. The purpose of EO 11988 is "to avoid to the extent possible the long- and short-term adverse impacts associated with the occupancy and modification of floodplains and to avoid direct or indirect support of floodplain development wherever there is a practicable alternative." The project is located within the 100-year floodplain and for this reason, EO 11988 applies. The subject unit occupies 4,322 square feet of the floodplain. An evaluation of direct and indirect impacts associated with construction, occupancy, and modification of the floodplain is required.

The project is a renovation of a non-residential structure. The renovation is not considered substantial improvement in accordance with 24 CFR 55.2 nor is the footprint increased; therefore, per 24 CFR 55.12(a)(4), public notification of the proposed activity (Step 2), identification and evaluation of practicable alternatives (Step 3) and the determination of no practicable alternative and publication of a final notice (Step 7) do not need to be conducted.

***Step 2: Notify the public for early review of the proposal and involve the affected and interested public in the decision-making process.***

The project is a renovation of a non-residential building. The building renovation is not considered substantial improvement and the building footprint is not being increased; therefore, per 24 CFR 55.12(a)(4), public notification of the proposed activity (Step 2 of the 8-Step Process) does not need to be conducted.

**Step 3: Identify and evaluate practicable alternatives to locating in the base floodplain.**

The project is a renovation of a non-residential building. The structure is not undergoing substantial improvement nor is the footprint increasing, therefore, per 24 CFR 55.12(a)(4), identification and evaluation of practicable alternatives to the proposed activity (Step 3 of the 8-Step Process) does not need to be conducted.

**Step 4: Identify Potential Direct and Indirect Impacts of Associated with Floodplain Development.**

The HUD-funded SBF program is intended to provide economic stimulus to Small Businesses for economic development. HUD's regulations limit what actions can be considered under the SBF program, including prohibition of any construction in the floodway. Descriptions of the potential impacts from the proposed action is below:

- Option A (Proposed Action) – This option would involve renovation of the non-residential building. The building is not undergoing substantial improvement and the footprint is not being increased; therefore, elevation is not required. The proposal does include a minor renovation of new 4 post car lift with no ground disturbance.

**Step 5: Where practicable, design or modify the proposed action to minimize the potential adverse impacts to lives, property, and natural values within the floodplain and to restore, and preserve the values of the floodplain.**

The PRDOH and the Puerto Rico Permits Management Office requires elevation or flood proofing of all "substantially damaged or improved" structures in the floodplain. When followed, these regulations will reduce the threat of flooding damage to properties located in the floodplain and reduce the impact of development on the floodplain. Applicants are required to adhere to the most recent floodplain elevation levels when considering reconstruction of their "substantially damaged or improved" property. It is noted; however, that because the property is not to be substantially improved and the footprint of the structure is not increased, floodplain management options are not required.

**Step 6: Reevaluate the Proposed Action.**

Option A would involve renovation of the non-residential building. This option would not adversely impact the floodplain and would help the small business benefit as part of the economic recovery needed because of Hurricanes Irma and Maria. This meets the program goals of revitalizing and supporting the economic development and recovery of Puerto Rico.

**Step 7: Determination of No Practicable Alternative.**

The project is a renovation of a non-residential structure. The structure is not undergoing substantial improvement nor is the footprint of the structure expanding; therefore, per 24 CFR 55.12(a)(4), the determination of no practicable alternative and publication of a final notice (Step 7 of the 8-Step Process) does not need to be conducted.

**Step 8: Implement the Proposed Action**

Step eight is implementation of the proposed action. The PRDOH will ensure that all measures prescribed in the steps above will be followed, as required.

**Puerto Rico Disaster Recovery, CDBG-DR Program: Small Business Financing Program (SBF)**

**Case PR-SBF-07368, Hondamania, Bo. Dulces Labios 27 Calle San Juan S, Mayagüez, Puerto Rico – No Historic Properties Affected**

Dear Architect Rubio Cancela,

On February 9, 2018, an allocation of Community Development Block Grant - Disaster Recovery (CDBG-DR) funds was approved by the United States Department of Housing and Urban Development (HUD) under the Federal Register Volume 83, No. 28, 83 FR 5844, to assist the Commonwealth of Puerto Rico in meeting unmet needs in the wake of Hurricanes Irma and Maria. On August 14, 2018, an additional \$8.22 billion recovery allocation was allocated to Puerto Rico under the Federal Register Volume 83, No. 157, 83 FR 40314. With these funding allocations, the Puerto Rico Department of Housing (PRDOH) aims to lead a comprehensive and transparent recovery for the benefit of Puerto Rico residents. To faithfully comply with HUD's environmental requirements, the PRDOH contracted Horne Federal, LLC (HORNE) to provide environmental records review services that will support their objectives for CDBG-DR.

On behalf of PRDOH and the subrecipient for the Small Business Financing Program (SBF), the Economic Development Bank for Puerto Rico, we are submitting documentation for the improvements proposed by Hondamania to the property located at Bo. Dulces Labios 27, Calle San Juan S in the National Register of Historic Places-eligible Mayagüez Traditional Urban Center. Improvements to the building are associated with the installation of a new four post car lift that will be bolted into the concrete floor. A new worktable and replacement parts will also be purchased and installed. The Program has determined that a finding of No Historic Properties Affected is appropriate for this proposed project and requests your concurrence.

We look forward to your response. Please contact me with any questions or concerns by email at [lauren.poche@horne.com](mailto:lauren.poche@horne.com) or phone at 225-405-7676.

Kindest regards,

In compliance with Section 106 of the National Historic Preservation Act (NHPA), the Program is responsible for identifying historic properties listed in the National Register of Historic Places (NRHP) and any properties not listed that would be considered eligible for listing that are located within the geographic area of potential effects (APE) of the proposed project and assessing the potential effects of its undertakings on these historic properties.

### Project Description (Undertaking)

The project undertaking is for improvements to the subject building at Bo Dulces Labios 27 Calle San Juan S, Mayagüez Puerto Rico. The building is metal framed workshop located just within the Mayagüez Traditional Urban Center. Improvements to the building are associated with the installation of a new four post car lift that will be bolted into the concrete floor. A new work table and replacement parts will also be purchased and installed.

### Area of Potential Effects

As defined in 36 CFR §800.16(d), the area of potential effects (APE) is the geographic area or areas within which an undertaking may directly or indirectly cause changes in the character or use of historic properties if any such properties exist. Based on this definition and the nature and scope of the Undertaking, the Program has determined that the Direct APE for this project is the subject building located at Bo Dulces Labios 27 Calle San Juan S in the municipality of Mayagüez. The Indirect/Visual APE is defined as the viewshed of the proposed project. Because the building is open and the lift may be located in the front of

the structure, it has been determined that the indirect effect will include adjacent historic properties and the Mayaguez Traditional Urban Center.

### **Identification of Historic Properties - Archaeology**

No ground disturbing activities are anticipated.

### **Identification of Historic Properties - Architecture**

Existing information on previously identified historic properties has been reviewed to determine if any such properties are located within the APE of this undertaking. The review of this existing information, by a Program contracted Historic Preservation Specialist meeting the Secretary of the Interior's Professional Qualification Standards (36 CFR Part 61), shows that the project area is located in the National Register of Historic Places (NRHP)-eligible Mayagüez Traditional Urban Center.

One identified historic property is within ¼ mile of the project area. This is the Aduana Federal building, constructed in 1838, which is a designated Historic Site per the Planning Board.

Mayagüez is one of the larger cities on the island of Puerto Rico and is located on the western coast. An examination of aerial imagery shows that a building was present in 1975 aerial imagery but absent from the 1950 imagery. Therefore, a construction date of circa 1965 has been determined.

The subject building is a metal framed mechanical workshop that is set back from the street to allow car storage in the front. The lot is enclosed by a chain link fence. There is no architectural significance to the metal building, and it does not contribute to the NR eligible Mayaguez TUC. Adjacent properties on the street are low scale residential building that are situated along the sidewalk with very little setback. These are a mix of early twentieth century wood framed residences with full width porches. Across the street are non-contributing metal warehouse buildings, as well as a 2-story residential structure constructed of concrete with mid century details. The wood frames residences adjacent to the building all contribute to the Mayagüez TUC.

### Determination

The following historic properties have been identified within the APE:

- Direct Effect:
  - Bo Dulces Labios 27 Calle San Juan S, Mayagüez PR 00682
- Indirect Effect:
  - Adjacent properties and the Mayaguez TUC

The subject building is within the Mayagüez Traditional Urban Center but does not contribute to the district. The addition of a new car lift will not have significant visual impacts and will not have an Adverse Effect on the adjacent historic properties nor the Mayaguez Traditional Urban Center. Therefore, the Program has determined that no historic properties affected is appropriate for the proposed undertaking.

**Re: Authorization to Submit Documents**

Dear Arch. Rubio Cancela:

The U.S. Department of Housing (HUD) approved the allocations of Community Development Block Grant (CDBG-DR) funds on February 9, 2018. It also approved the allocation of Community Development Block Grant Mitigation (CDBG-MIT) funds on January 27, 2020. The purpose of these allocations is to address unsatisfied needs as a result of Hurricanes Irma and Maria in September 2017; and to carry out strategic and high-impact activities to mitigate disaster risks and reduce future losses.

To comply with the environmental requirements established by HUD, the Department of Housing of Puerto Rico (PRDOH) contracted Horne Federal LLC to provide environmental registry review services, among others, that will support the objectives of the agenda for both CDBG-DR and CDBG -MIT Programs.

In line to expedite the processes, Horne Federal LLC, is authorized to submit to the State Historic Preservation Officer, documentation of projects related to both the CDBG-DR and CDBG-MIT on behalf of PRDOH.

Cordially,

Juan C. Pérez Bofill, P.E. M.Eng

Director of Disaster Recovery

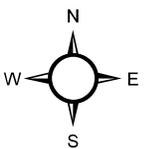

CDBG DR-MIT
