On 3/9/18, E&F Development, Inc. submitted a proposal that demonstrated the need to recognize the percentage of food that is grown domestically. The proposal stated that Puerto Rico needs to work towards the idea of food sustainability. The company offers the development of community orchard, in schools and in homes, training in the field of horticulture, ecologic agriculture, and local agriculture shops. E&F Development requests that CDBG-DR funding be used to create community gardens.
